

The Bedford Heights Community Center is a fully equipped fitness facility that includes a beautiful indoor swimming pool, whirlpool, sauna, fitness/aerobics room, weight room, basketball court, indoor track, game room, learning center, batting cages, racquetball courts and senior center. Just adjacent to the center are our baseball fields, basketball court and playground area. The Community Center is also responsible for the maintenance and upkeep of our two parks (Reed Park and the Metro Park). Reed Park is equipped with a beautiful outdoor swimming pool, beach volleyball court, basketball courts, tennis courts, and a pavilion area.

The Community Center offers a wide range of recreational opportunities essential to the health and well being of our community. We are committed to educate and enlighten individuals through programs that promote social interaction, build family unity and strengthen neighborhood involvement. Our goal is to manage the facility with a commitment of continuous quality improvement.
